

## Press Release Module

Press Release is a most important for Book description with it author Book website. Because before deciding to buy any Books in online shop, customers have many questions in mind. It lets your customer to find the books without waiting for help support to respond. This Extension allows admin to add Book Name, info, document along with the Author from the admin side which can be displayed on front-end using accordion style.

### Features

- **Backend**
  - Easy to create and manage Books with its Author.
- **Frontend**
  - Display Press Release with Author.

### STEPS FOR INSTALLATION

#### 1. Installation

- Magento Press Release Module installation is super easy you need to copy-paste app and skin folders in Magento root directory.

#### 2. Create/Manage Press Release

- Go to admin panel sigma solve -> Press Release -> Manage Press Release. Here you can add/edit and manage Press Release.

#### 3. Configure Press Release Settings

- Go to admin panel sigma solve -> Press Release -> Setting. Here you can Enable/Disable Module, set default title and set record per page.

The screenshot displays the configuration interface for the Press Release module. On the left, a sidebar shows the 'Configuration' menu with 'SIGMASOLVE EXTENSIONS' and 'Press Release' highlighted. The main content area is titled 'Press Release' and includes a 'Save Config' button. It is divided into two sections: 'General Settings' and 'Press Release Settings'. In 'General Settings', the 'Enabled' field is set to 'Yes' and is circled in red with the label 'Module Enable/Disable'. In 'Press Release Settings', the 'Pressreleases Title (Default)' field is set to 'Press Release' and is circled in red with the label 'Module Title(by default "Press Release")'. The 'Pressreleases records per page' field is set to '0' and is circled in red with the label 'Records Per Page for front display'. Each field has a '(STORE VIEW)' link next to it.
